

Anti-pollen filter technical datasheet

Filter class according to EN779	M5 / F5
Article no.	FM25...
Weight (approximate)	250 g/m ²
Thickness (approximate)	10 mm
Temperature resistance	up to 100 °C
Medium efficiency	> 40%
Nominal flow rate	0.25 m/s
Pressure difference	20 Pa
Possible cutting tolerance	+/- 2-3 mm < 1400mm

Other features:

- Grade M5 according to EN779:2012
- Synthetic filter mat
- Self-extinguishing according to fire class F1, DIN 53438
